

OBJECTIVES OF CATHERINE

You are the witness Catherine. Late one night you heard strange noises and what sounded like screams coming from your neighbour's house. You are aware of the old man David who lived at the house as well as his housekeeper, Ed, however your relationship is entirely up to you. and so is your testimony. To deliver your testimony in the most sincere way, it is a good idea to prepare your testimony and develop your character prior to the hearing. If your testimony and character appear incomplete, the jury is likely to refuse your testimony in their final considerations and verdict of the case.
